Table of contents

/user

Koncové body pro práci s uživatelem

POST /user

Registrace nového uživatele

```
POST /user
```

Body

> **Media type**: application/json
>
> **Properties:**
>
> - **email**: *required (string)*
>   Email
>
> - **password**: *required (string)*
>   Heslo
>
> - **first_name**: *required (string)*
>   Jméno
>
> - **last_name**: *required (string)*
>   Příjmení
>
> **Example:**

```
{
  "email": "sikora@skrai.cz",
  "password": "IOJdfOJn8asd76",
  "first_name": "Martin",
  "last_name": "Sikora"
}
```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **data**: *required (object)*
  data přihlášeného uživatele

  - **id**: *required (integer)*
    identifikace uživatele

  - **access_token**: *required (string)*
    přístupový token

  - **first_name**: *required (string)*
    jméno

  - **last_name**: *required (string)*
    příjmení

  - **email**: *required (string)*
    email

Example:

```
{
  "status": true,
  "data": {
      "id": 1,
      "access_token": "L1VSVd9TpGXr4JepZAov61SAEJZmI4ss",
      "first_name": "Martin",
      "last_name": "Sikora",
      "email": "sikora@skrai.cz
    }
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

PUT /user

Úprava uživatele

```
PUT /user
```

Headers

- **Authorization**: *required (string)*
  Přístupový token.

  Example:

  ```
  Bearer L1VSVd9TpGXr4JepZAov61SAEJZmI4ss
  ```

Body

Media type: application/json

Properties:

- **email**: *(string)*
  Email

- **password**: *(string)*
  Heslo

- **first_name**: *(string)*
  Jméno

- **last_name**: *(string)*
  Příjmení

Example:

```
{
  "email": "sikora@skrai.cz",
  "password": "IOJdfOJn8asd76",
  "first_name": "Martin",
  "last_name": "Sikora"
}
```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **data**: *required (object)*
  data přihlášeného uživatele

    - **id**: *required (integer)*
      identifikace uživatele

    - **access_token**: *required (string)*
      přístupový token

    - **first_name**: *required (string)*
      jméno

    - **last_name**: *required (string)*
      příjmení

    - **email**: *required (string)*
      email

Example:

```
{
  "status": true,
  "data": {
      "id": 1
      "access_token": "L1VSVd9TpGXr4JepZAov61SAEJZmI4ss",
      "first_name": "Martin",
      "last_name": "Sikora",
      "email": "sikora@skrai.cz
    }
}
```

Response 401

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is missing."
}
```

Response 403

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is not valid."
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

GET /user

Získání dat přihlášeného uživatele

```
GET /user
```

Headers

- **Authorization**: *required (string)*
  Přístupový token.

  Example:

  ```
  Bearer L1VSVd9TpGXr4JepZAov61SAEJZmI4ss
  ```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **data**: *required (object)*
  data přihlášeného uživatele

  - **id**: *required (integer)*
    identifikace uživatele

  - **access_token**: *required (string)*
    přístupový token

  - **first_name**: *required (string)*
    jméno

  - **last_name**: *required (string)*
    příjmení

  - **email**: *required (string)*
    email

Example:

```
{
  "status": true,
  "data": {
      "id": 1
      "access_token": "L1VSVd9TpGXr4JepZAov61SAEJZmI4ss",
      "first_name": "Martin",
      "last_name": "Sikora",
      "email": "sikora@skrai.cz
    }
}
```

Response 401

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is missing."
```

```
    }
```

Response 403

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is not valid."
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

POST /user/login

Přihlášení registrovaného uživatele

```
POST /user/login
```

Body

Media type: application/json

Properties:

- **email**: *required (string)*
  Email

- **password**: *required (string)*
  Heslo

Example:

```
{
  "email": "sikora@skrai.cz",
  "password": "IOJdfOJn8asd76"
}
```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **data**: *required (object)*
  data přihlášeného uživatele

    - **id**: *required (integer)*
      identifikace uživatele

    - **access_token**: *required (string)*
      přístupový token

    - **first_name**: *required (string)*
      jméno

    - **last_name**: *required (string)*
      příjmení

    - **email**: *required (string)*
      email

Example:

```
{
  "status": true,
  "data": {
      "id": 1,
      "access_token": "L1VSVd9TpGXr4JepZAov61SAEJZmI4ss",
      "first_name": "Martin",
      "last_name": "Sikora",
      "email": "sikora@skrai.cz
    }
}
```

Response 401

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Invalid email or password."
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

GET /user/logout

Odhlášení uživatele

```
GET /user/logout
```

Headers

- **Authorization**: *required (string)*
  Přístupový token.

  Example:

  ```
  Bearer L1VSVd9TpGXr4JepZAov61SAEJZmI4ss
  ```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

Example:

```
{
  "status": true
}
```

Response 401

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is missing."
}
```

Response 403

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is not valid."
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

PUT /user/request-password-reset

Žádost o změnu zapomenutého hesla

```
PUT /user/request-password-reset
```

Body

Media type: application/json

Properties:

- **email**: *(string)*
  Email

Example:

```
{
  "email": "sikora@skrai.cz"
}
```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

Example:

```
{
  "status": true
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

/place

GET /place

Získání míst

```
GET /place
```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **data**: *required (object)*
  data přihlášeného uživatele

  - **id**: *required (integer)*
    ID místa

  - **name**: *required (string)*
    Název

  - **latitude**: *required (string)*
    Nadmořská výška

  - **longitude**: *required (string)*
    Nadmořská šířka

  - **oldestPhoto**: *required (object)*

nejstaší fotografie

- **id**: *required (integer)*
  identifikace fotografie

- **captured_at**: *required (string)*
  datum pořížení

- **id_file**: *required (integer)*
  identifikace souboru

- **id_place**: *required (integer)*
  identifikace místa

- **id_user**: *required (integer)*
  identifikace autora

- **user**: *required (object)*
  infrormace o uživateli

  - **id**: *required (integer)*
    identifikace uživatele

  - **first_name**: *required (string)*
    jméno

  - **last_name**: *required (string)*
    příjmení

- **newestPhoto**: *required (object)*
  nejnovětší refotografie

  - **id**: *required (integer)*
    identifikace fotografie

  - **captured_at**: *required (string)*
    datum pořížení

  - **id_file**: *required (integer)*
    identifikace souboru

  - **id_place**: *required (integer)*
    identifikace místa

  - **id_user**: *required (integer)*
    identifikace autora

  - **user**: *required (object)*
    infrormace o uživateli

    - **id**: *required (integer)*
      identifikace uživatele

    - **first_name**: *required (string)*
      jméno

    - **last_name**: *required (string)*
      příjmení

Example:

```
{
  "status": true,
  "data": [
    {
      "id": "1",
      "name": "Place 0",
```

```
            "latitude": "48.93347241",
            "longitude": "11.81011800",
            "oldestPhoto": {
                "id": "1",
                "captured_at": "1965-02-01 00:00:00",
                "id_file": "1",
                "id_place": "1",
                "id_user": "1",
                "user": {
                    "id": "1",
                    "first_name": "Martin1",
                    "last_name": "Sikora2"
                }
            },
            "newestPhoto": {
                "id": "3",
                "captured_at": "2018-05-22 22:58:03",
                "id_file": "3",
                "id_place": "1",
                "id_user": "1",
                "user": {
                    "id": "1",
                    "first_name": "Martin1",
                    "last_name": "Sikora2"
                }
            }
        }
    ]
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

POST /place

Tvorba místa

```
POST /place
```

Body

Media type: application/json

Properties:

- **name**: *required (string)*
  Název

- **description**: *required (string)*
  Popis

- **latitude**: *required (number)*
  Nadmožská výška

- **longitude**: *required (number)*
  Nadmořká šířka

- **id_category**: *required (integer)*
  ID kategorie

- **file**: *required (file)*
  soubor s fotografií

Example:

```
{
  "name": "Testovací 1",
  "description": "popisek",
  "latitude": 49,
  "longitude": 17,
  "id_category": 1
}
```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

Example:

```
{
  "status": true
}
```

Response 401

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is missing."
}
```

Response 403

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is not valid."
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

PUT /place/{id}

Úprava místa

```
PUT /place/{id}
```

URI Parameters

- **id**: *required (integer)*
  ID místa

  Example:

  ```
  2
  ```

Body

Media type: application/json

Properties:

- **name**: *required (string)*
  Název

- **description**: *required (string)*
  Popis

- **latitude**: *required (number)*
  Nadmožská výška

- **longitude**: *required (number)*
  Nadmořká šířka

- **id_category**: *required (integer)*
  ID kategorie

Example:

```
{
        "name": "Testovací 1",
        "description": "popisek",
        "latitude": 49,
        "longitude": 17,
        "id_category": 1
}
```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

Example:

```
{
```

```
    "status": true
  }
```

Response 401

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
  {
    "status": false,
    "error": "Authorization header is missing."
  }
```

Response 403

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
  {
    "status": false,
    "error": "Authorization header is not valid."
  }
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*

chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

DELETE /place/{id}

Smazání místa

```
DELETE /place/{id}
```

URI Parameters

- **id**: *required (integer)*
  ID místa

  Example:

  ```
  2
  ```

Response 200

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

Example:

```
{
  "status": true
}
```

Response 401

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is missing."
}
```

Response 403

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is not valid."
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

POST /place/{id}/photo

Přidání refotografie k místu

```
POST /place/{id}/photo
```

URI Parameters

- **id**: *required (integer)*
  ID místa

  Example:

      2

Body

> **Media type**: application/json
>
> **Properties:**
>
> - **file**: *required (file)*
>   Soubor s refotografií

Response 200

Body

> **Media type**: application/json
>

> **Example**:
>
> ```
> {
>   "status": false,
>   "error": "Authorization header is missing."
> }
> ```

Response 403

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Authorization header is not valid."
}
```

Response 500

Body

Media type: application/json

Properties:

- **status**: *required (boolean)*
  stav požadavku

- **error**: *required (string)*
  chybová hláška

Example:

```
{
  "status": false,
  "error": "Internal server error."
}
```

DELETE /place/{id}/photo/{id_photo}

Smazání refotografie

```
DELETE /place/{id}/photo/{id_photo}
```

URI Parameters

- **id**: *required (integer)*
  ID místa

  Example:

  2

- **id_photo**: *required (integer)*

ID refotografie

Example:

    3

Response 200

Body
